Welcome To Q Research Operation's Warroom.

"A human being should be able to change a diaper, plan an invasion, butcher a hog, conn a ship, design a building, write a sonnet, balance accounts, build a wall, set a bone, comfort the dying, take orders, give orders, cooperate, act alone, solve equations, analyze a new problem, pitch manure, program a computer, cook a tasty meal, fight efficiently, die gallantly. Specialization is for insects." -Robert A. Heinlein
 DIG MEME PRAY [All 3]

We hold these truths to be self-evident.

- All men are created equal.
- All men are endowed by their Creator with certain unalienable rights.
- That among these rights are life, liberty, and the pursuit of happiness.

We are hacktivist who deal in open-source information, reasoned argument, and meme warfare. We do battle in the digital realm of social networks. We neither need, nor condone the use of physical force. All illegal content reported. Not Liable.

The Q post about it being a sprint and not a marathon got me thinking about the Boston Marathon bombing. Guess who was in charge of public safety at the Boston Marathon? Barbara Ferrer, the head of public health for Los Angeles. She and her people were already there and set up all over when it happened.

Welcome to the Global War

You are now entering the mind of Patriots worldwide, and to our fight we welcome you. Since late 2017, Q Clearance Patriot, more commonly known as Q, has tasked us with compiling events and evidence of the world-changing circumstances that have, and have yet to transpire.

We are anonymous; We are your friends, your family, your co-workers, and strangers alike. Just like you, we knew there was something wrong with the world around us. Like you, we had a desire for our world to achieve peace. And like you, we found ourselves here in the forefront of information warfare. We stand for truth. Will you join the fight? Will you brave the depths of the unknown with bravery and courage?

Know that the corruption that you are about to unravel is not the fault of any one person. The pervasive systems of evil being unveiled and dismantled here have pitted us against one another since before your birth. Be strong, stand together, and stay united. We are with you. Together we are unstoppable! United we are invincible!

Show no fear, as now is the time for We The People to make our final stand in this battle between good and evil! Love shall prevail!

May your thoughts be clear, your wits be sharp, and your heart be strong. For in this digital age, the mind is the battlefield, and it can be your strongest ally or the greatest enemy.

https://en.wikipedia.org/wiki/Alan_Moore

Moore is an occultist, ceremonial magician,[6] and anarchist,[7] and has featured such themes in works including *Promethea*, *From Hell*, and *V for Vendetta*, as well as performing avant-garde spoken word occult "workings" with The Moon and Serpent Grand Egyptian Theatre of Marvels, some of which have been released on CD.

Despite his own personal objections, his works have provided the basis for a number of Hollywood films, including *From Hell* (2001), *The League of Extraordinary Gentlemen* (2003), *V for Vendetta* (2005), and *Watchmen* (2009). Moore has also been referenced in popular culture, and has been recognised as an influence on a variety of literary and television figures including Neil Gaiman,[8] Joss Whedon, and Damon Lindelof.[9] He has lived a significant portion of his life in Northampton, England, and he has said in various interviews that his stories draw heavily from his experiences living there.

Information Warfare: Issues for Congress
March 5, 2018 R45142

Information warfare is hardly a new endeavor. In the Battle of Thermopylae in 480 BC, Persian ruler Xerxes used intimidation tactics to break the will of Greek city-states. Alexander the Great used cultural assimilation to subdue dissent and maintain conquered lands. Military scholars trace the modern use of information as a tool in guerilla warfare to fifth-century BC Chinese military strategist Sun Tzu's book The Art of War and its emphasis on accurate intelligence for decision superiority over a mightier foe. These ancient strategists helped to lay the foundation for information warfare strategy in modern times....

Censorship on the internet today astounds me. The fact that even the dark web is impossibly unnavigable for anonymous discussion and public access to information is a canary in the mine. I'm left no choice but to do this.

The clock is ticking and the tendrils of the octopus reach into your own perspective. On Dec 21st the History of Silence will publish.
